Borders keep shrinking

Advancements in transportation and technology make us more and more interconnected on a global scale. Business organizations have a greater need than ever to operate seamlessly in other jurisdictions, especially when seeking to expand into new international markets. Canada provides a welcome business environment for foreign businesses, with a highly educated workforce, low business taxes, an ethical business culture and a stable financial system.

Is your business ready to take advantage of the dynamic opportunities presented in our global marketplace and explore international opportunities? If so, then you need solid, practical advice to help shatter national borders and achieve international success.

Pallett Valo LLP can help your business cross borders

We have a comprehensive understanding of the challenges and obstacles faced when trying to do business internationally. Because of our people, location and processes, we can provide a level of legal service that much larger firms *could* provide, but at a better value.

- We have secured relationships with law firms across Canada, the United States and internationally. These affiliations enable us to *provide appropriate legal advice and counsel on both sides of the U.S./Canada border and beyond*. The combination of our internal capabilities and these expansive relationships allows us to allocate the resources needed to do the job once, and do it right.
- *We are located just West of Toronto, Canada's business capital. We can access the talent and financial resources that are available in Toronto, but at a cost that is considerably less than what downtown firms charge.*

Our Cross-Border Legal Services Include

- *Bank and asset based finance*
- *Commercial real estate acquisitions*
- *Corporate governance*
- *Franchising*
- *Intellectual property*
- *Licensing and technology transfers*
- *Outsourcing*
