

Articling at Pallett Valo LLP

What We are Looking for in a Student

- **Demonstrated interest in business development:** We see our students as our future partners, so entrepreneurial experience is a key asset. Don't worry if you don't have experience actually running a business – highlight transferrable skills gained through extracurricular activities, community involvement, etc.
- **Academic excellence:** We are looking to hire exceptional students whose work ethic is reflected in their grades. Straight A's are not a requirement, but marks need to show consistent effort and/or improvement.
- **Connection to Peel Region:** Our hope is that our students will become associates and eventually partners at the firm. Although not necessary, a connection to Peel Region suggests that a student may be in it for the long haul.

Tips for the Application Process

- **Spell the firm name correctly:** Pallett has two Ls and two Ts; Valo has one L.
- **Follow the instructions on our website:** The student page on our website sets out what your application package should include, to whom it should be addressed and how it should be submitted. A student who fails to follow these instructions may be seen as careless or not paying attention to detail.
- **Proofread your application:** Spell check is not enough, particularly if you have used a template cover letter for all of your applications.
- **Customize your cover letter:** Your cover letter is the first thing we read. Use it to highlight your interest in Pallett Valo and what you think makes you a good fit for our firm. Your cover letter is also an opportunity to explain any irregularities in your application, such as a bad grade on a transcript.
